CDC

The College Development Committee is established in the college as per provisions in Maharashtra Public University Act 2016. Previously it was LMC (Local Management Committee) where important decisions were taken. It is good that the different representatives working on various platforms will represent the CDC and will contribute in the development of the institution. Their experience will strengthen the weaknesses of the same.

We do arrange the meetings of the CDC at particular intervals, note the minutes and try to implement them.
